## 1. Introduction

This template is proposed for the 1<sup>st</sup> International symposium of digital human modeling, which will be held in Lyon, France, June 14-16. Please follow the instructions to write your full article which will be published in the conference proceedings in an electronic format. The papers can also be downloaded from the conference website after the conference.

The paper size should be within 4 and 8 pages.

The important dates are

- March 15, full draft version for being reviewed by at least two reviewers
- April 15, feedback of review results
- April 30, final version to be included in the proceeding

Please refer to the conference website for more instructions: <http://iea-dhm2011.univ-lyon1.fr/en>

## 2. Materials and Methods

### 2.1. Section styles

Please use the appropriate predefined styles to format your paper.

The main style is Text. In addition, the following styles are defined:

- Article Title
- Authors
- Affiliation
- AbstractTitle
- Keywords

- SectionNoNum for section Acknowledgement and References titles
- Section for title 1
- SubSection for title 2
- Figure
- FigureCaption
- TableCaption
- Abs\_list for bulleted list

### 2.2. Tables and Figures

The paper may include tables, such as Table 1, or figures (see Fig. 1). Note that no blank line is needed before or after Table caption, Figure and Figure caption.

Table 1: Example of a table. Table should be formatted using the “Text” style. Table should be centered. Caption should be typed above the table using the “TableCaption” style.

	Column 1	Column 2
Line 1	toto	1.8
Line 2	tata	2.3

However, add one blank line after Tables.

Figure 1: Example of a Figure. Avoid floating figures. Figures should be centered. Figure captions should be typed below the figure using the “FigureCaption” style.

### *2.3. Citations and references*

Citations should be referred to in the References section (“Text” style), using author’s first name and year into brackets (Trucmuch and Starschmutz 2056). In case of more than two authors, use the “et al.” contraction (Tartempion et al. 1999). Multiple citations should be separated by semi-coma “;” (Trucmuch and Starschmutz 2056; Tartempion et al. 1999).

### **3. Results**

In this section you should present the results.

### **4. Discussion**

And here they should be discussed.

### **5. Conclusion**

Please conclude with a brief paragraph highlighting the main results and achievements of this study.

### **Acknowledgement (style SectionNoNum)**

This study was carried out thanks to the financial support of the philanthropic association of former circus performers.
